Tacktick Race Master dominates winners at Flying Fifteen Inlands

What did the first 6 boats have in common at the Flying Fifteen Inlands held at Grafham Water last weekend?

They were all sailing with Tacktick's Race Master, the ultimate tactical race compass and windshift indicator. Including second placed Greg Wells, Tacktick's Sales Director!

Designed specifically for keel and sports boats, the Tacktick Race Master provides critical tactical race information that gives sailors the edge. Before the start, it enables users to quickly and easily establish the favoured end of the start line and then shows compass heading and countdown timer concurrently so you can make those last minute line and wind checks and still see the timer.

Sailing upwind during the race you get compass heading and crucial wind shift information so you can see precisely how much you are being headed or lifted. Finally, downwind, the Race Master shows how far off dead downwind you are heading and therefore when you should gybe for optimal VMG.

By all accounts the championship, held at Grafham Water was both sunny and breezy with plenty of wind shifts which those using their Tacktick Race Masters were able to take advantage of.

Notes for editors:

April 2009

Tacktick are world leaders in wireless, solar powered electronics for the marine industry. Formed in 1996 by brothers Clive and Mark Johnson, years of extensive research and development, together with customer feedback led to the development of the world's first wireless networking electronics system, Micronet, in 2003. Tacktick offer a range of wireless electronic instruments for dinghies through to race boats, cruisers and power boats too. Top sailors around the world have been sailing with Tacktick's instruments since 1997. In April 2007 Tacktick won the prestigious Queens Award for Innovation for their Micronet technology. www.tacktick.com. In April 2009 Suunto, the leading manufacturer of sports precision instruments announced its acquisition of Tacktick. The purchase was carried out by a sister company Amer Sports UK Ltd a subsidiary of the Amer Sports Group.
