

## **Tacktick appoints Coursemaster Autopilots Pty as Australian distributor**

### **COURSEMASTER AUTOPILOTS**

UK electronics manufacturer Tacktick are pleased to announce the appointment of Coursemaster Autopilots to distribute their wireless electronics range throughout Australia with immediate effect.

Coursemaster Autopilots Pty has been designing and manufacturing quality autopilots in Sydney, Australia for 35 years and is an experienced distributor of other well known marine electronics brands including Koden, KVH, Seiwa and Interphase for whom it offers technical sales and service expertise.

Commenting on the new appointment, Greg Wells, Sales Director of Tacktick said, "We are delighted to be working with Coursemaster in Australia; they are a well respected and established Australian business with years of invaluable experience in marine electronics. The addition of Tacktick's award winning wireless instruments fits perfectly into their existing portfolio of high quality marine electronics. We have been impressed with the technical skills and strong sales operation within Coursemaster which we believe will ensure that Tacktick customers are well supported in Australia."

Paul Garske, General Manager at Coursemaster commented, "We are excited about taking on the Tacktick brand and further developing their wireless technology into the Australian marine market. We are looking forward to working closely with the Tacktick team and see great potential for the whole of their range especially the new mn30 wireless wind which is ideal for the Australian retro-fit market."

Tacktick remain world leaders in wireless electronics with their extensive range of innovative solar powered electronics designed specifically for dinghies, sports boats, cruising and racing yachts. With over 12 years experience using solar powered technology and an impressive development of new products the company is fast gaining a reputation for reliability and innovation in the marine market.

**Ends**

**Notes for editors:**

**February 2009**

Tacktick are world leaders in wireless, solar powered electronics for the marine industry. Formed in 1996 by joint managing directors Clive and Mark Johnson, years of extensive research and development, together with customer feedback led to the development of the world's first wireless networking electronics system, Micronet, in 2003. Tacktick offer a range of wireless electronic instruments for dinghies through to race boats, cruisers and power boats too. Top sailors around the world have been sailing with Tacktick's instruments since 1997. In April 2007 Tacktick won the prestigious Queens Award for Innovation for their Micronet technology.
