

## **Tacktick to sponsor Sigma 38 Nationals**

Tacktick will be sponsoring the Sigma 38 Nationals taking place in Yarmouth 1<sup>st</sup>-3<sup>rd</sup> May in this their 21<sup>st</sup> anniversary year.

The Sigma 38 Nationals will be run by the Royal Solent Yacht Club in Yarmouth and wireless electronics experts Tacktick will be providing the prizes.

2009 sees the Sigma 38 Offshore One Design Class Association come of age with the designer David Thomas and other distinguished luminaries from the world of international yacht racing expected to attend and join in a series of fun events to mark the occasion.

Racing in this offshore one design fleet is always tight but owners looking to upgrade their instruments for racing performance data can do so quickly and easily by installing Tacktick's wireless Maxi range of sophisticated large screen racing instruments.

The Maxi's large solar powered displays can be wirelessly fitted as either stand alone instruments or interfaced to existing electronics ( such as Raymarine, B&G and Navico) to give vital racing data wherever it's needed. Tacktick's Maxi range offer sophisticated racing solutions including a unique start line function for optimising starts. With no wires to run through the boat or up the mast and super-thin, lightweight displays, Tacktick's instruments offer the most weight efficient package for Sigma 38 owners.

Commenting on Tacktick's sponsorship of the event, James Hewitt, Sales Manager for Tacktick said "We are delighted to be sponsoring the Sigma 38 Nationals in their anniversary year; Tacktick's wireless instruments offer the perfect solution for owners wishing to replace and upgrade their electronics with a growing number of owners already enjoying the benefits of our innovative instruments.."

Owners wishing to find out the ideal wireless electronics package for their boats should log onto [www.tactick.com](http://www.tactick.com) and try our online configurator which will design the perfect electronics package for your boat and sailing preferences.

**Ends**

**Notes for editors:**

**April 2009**

**Tactick** are world leaders in wireless, solar powered electronics for the marine industry. Formed in 1996 by joint managing directors Clive and Mark Johnson, years of extensive research and development, together with customer feedback led to the development of the world's first wireless networking electronics system, Micronet, in 2003. Tactick offer a range of wireless electronic instruments for dinghies through to race boats, cruisers and power boats too. Top sailors around the world have been sailing with Tactick's instruments since 1997. In April 2007 Tactick won the prestigious Queens Award for Innovation for their Micronet technology.
