WIRELESS INSTRUMENTS FOR CRUISING

Tacktick by Suunto's extensive range of wireless, solar-powered marine instruments provides critical information about your sailing boat and its surroundings.

Tacktick's display units are simple to use and easy to install, providing accurate and visible data necessary for your peace of mind. The superior Micronet wireless technology also means there's no need to drill holes or thread wires. And with the addition of Suunto precision instruments, you'll have complete reliability and confidence when cruising any ocean.

To find out more, or to test a configuration on your boat, visit our website.
