WIRELESS ENTRY LEVEL INSTRUMENTS

Tacktick by Suunto's extensive range of wireless, solar-powered marine instruments provides critical information about your boat and its surroundings.

The Tacktick entry-level speed and depth system uses superior Micronet wireless technology, is extremely easy to set up and, in most cases, is compatible with your existing Airmar transducers. And with the addition of Suunto precision instruments, you'll have complete reliability and confidence in any boating activity.

To find out more, or to test a configuration on your boat, visit our website.
