WIRELESS INSTRUMENTS FOR POWER

Tacktick by Suunto's extensive range of wireless, solar-powered marine instruments provides critical information about your powerboat and its surroundings.

Simple to use and easy to fit, you can place the modular display units anywhere you like. Using Micronet wireless technology, they can

withstand pounding and vibrations at high speeds. And with the addition of Suunto precision instruments, you'll have complete reliability and confidence in any conditions.

To find out more, or to test a configuration on your boat, visit our website.
