

NEW MAXI DISPLAY NOW AVAILABLE!

WORLD LEADERS IN WIRELESS INSTRUMENTS

Key Features

- Wireless display
- Super-large 50mm digits
- Displays ANY single data type
- Solar powered
- 300 hours autonomy
- Backlighting in orange or red
- Totally waterproof to 10m
- Lightweight only 360g

The Maxi Displays can be interfaced with any instrument system via NMEA, including Raymarine B&G and Simrad.

The Remote Display not only provides you with additional performance data and graphing pages to monitor trends but is also essential to control and configure your Maxi Displays from anywhere on the boat.
